

Upper Coastal Plain Rural Planning Organization (UCPRPO)

TCC Meeting
March 1, 2022

Edgecombe County - Johnston County – Nash County – Wilson County

The meeting will begin at 2:00 PM

Please mute your line if you have not already done so.

UCPRPO TCC Meeting

Edgecombe County - Johnston County – Nash County – Wilson County

March 1, 2022

Meeting Guidelines

**Please keep
microphone muted**

Chat is enabled

- Please keep your microphone on mute until you are ready to make a comment or ask a questions.
- Turn your microphone on to speak but remember to turn it off once you have finished.
- Begin with stating your name so everyone will know who is speaking.
- You may use the chat feature to send a note. The chat will be checked, but please get my attention if I fail to respond quickly.
- All votes will be completed by roll call as per NCGS 166A-19.24(b)(5). When the chair calls for a vote, I will call roll and ask each person to respond with a 'yes' or 'no'.
- Please remember to mute yourself again after roll call.

UCPRPO TCC Meeting

Edgecombe County - Johnston County – Nash County – Wilson County

March 1, 2022

1. Welcome & Introductions – Adam Tyson – TCC Chair

- ROLL CALL

2. REVIEW AGENDA FOR ADDITIONS OR CORRECTIONS

March 1, 2022

3. APPROVAL OF UCPRPO TCC MEETING MINUTES

Review and approval of the January 4, 2022 minutes with a motion and second..... Then roll call

4. Member updates from members around the Region

Roll call will be completed to allow each member an opportunity to provide updates from each member jurisdiction.

Clean Transportation Program

Electric Vehicles and Charging Infrastructure

NGVs, Propane Vehicles and Fueling Infrastructure

Ethanol, Biodiesel and Other Biofuels

Other Emissions Mitigation Technologies and Programs

Clean Transportation Program

- We work to propel the development, awareness and use of alternative fuels and advanced transportation technologies through:
 - technical assistance, including trainings and fleet assessments
 - education and outreach initiatives, including workshops, meetings, conferences and marketing campaigns highlighting the benefits of using clean transportation technologies
 - administering clean transportation technology grants

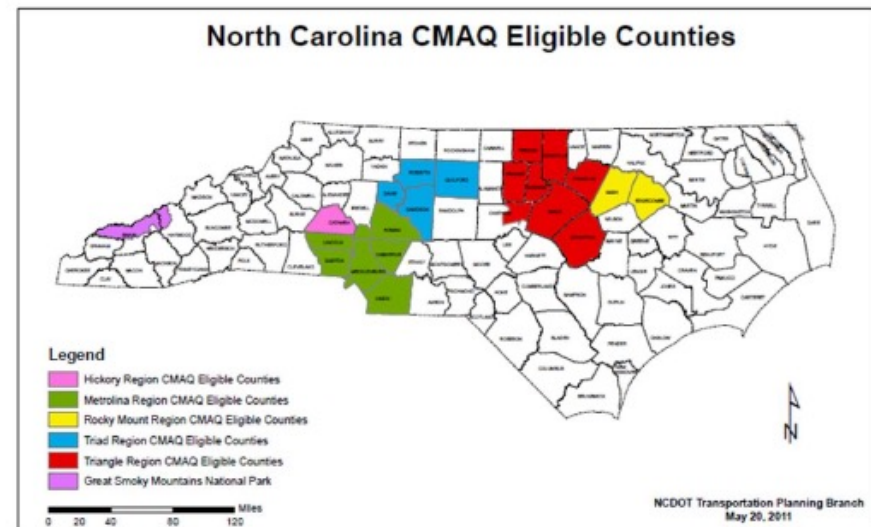

Clean Transportation Overview

Opportunities	Services Provided	Targeted Sectors	Benefits
Alternative Fuels (propane, natural gas, biofuels, electric vehicles)	Assessments Public education Technical training	Public and private fleets Transit agencies General public	Fuel savings; emissions reductions; shifting to domestic fuels
Vehicle utilization, idle reduction technologies, and telematics	Assessments Fleet manager workshops	Public and private fleets	Fuel savings, maintenance savings, increased safety for drivers, emissions reductions
Research	Policy studies Overviews of different transportation technologies	State or federal agencies, transit agencies	Research studies can be applied to support various transportation applications that can support policy or technology development or implementation

Clean Fuels and Advanced Technology (CFAT) Project

- The CFAT project deploys federal Congestion Mitigation Air Quality (CMAQ) funding received from the N.C. Department of Transportation (DOT)
- Those funds provide direct financial assistance to numerous clean transportation projects each year for a variety of public and private entities, all focused on reducing transportation-related air pollution emissions
- The funds focus on 24 CMAQ-eligible counties currently in “maintenance” status under federal air quality rules, though electric charging infrastructure can be funded statewide
- We are awaiting our contract for these funds and hope to put out an RFP in the late Winter/ early Spring.

CFAT Project Overview Cont'd

- Over past 15 years, we have provided \$11.9M in federal funds to help private and public fleets in NC purchase clean transportation technologies to improve NC air quality

Some projects funded to date:

- 110 Infrastructure projects
- 327 Alternative fuel vehicles
- 39 Hybrid vehicles
- 74 Diesel retrofits
- 128 Propane retrofits
- 310 Telematics units

Clean Transportation: Fleet Education

- The Sustainable Fleet Technology webinars series provides virtual trainings on topics related to electric vehicles, fuel efficiency, and other ways of improving your fleet's sustainability
- Sustainable Fleet Technology Conference
 - In-person conference August 30-September 1, 2022 at Durham Convention Center
 - www.SustainableFleetExpo.com

Clean Transportation: Public Education

- In Person Public Outreach/Ride and Drive Events
 - We organize electric vehicle displays outside sporting events and other events, such as Earth Day Festivals
- Student Art Contest
 - In March through April, North Carolina K-12 students can submit artwork that is voted on through Facebook. Winners have their artwork displayed on billboards across the state.

NC DEQ VW Settlement Partner

- Table 3 of the Historically Under-Resourced Counties Outreach Program in Phase 2 of the VW Mitigation Plan describes Edgecombe, Halifax, Nash, Northampton and Wilson counties to receive maximum funds for the VW Settlement.
- NCCETC can provide guidance on the application process for Eastern and Central North Carolina Clean Cities stakeholders.
- The VW RFP for Transit and Shuttle bus Replacements under Phase 2 is currently open. The RFP for DC Fast Chargers along priority corridors will be released in mid-February.

Eastern and Central North Carolina Clean Fuels Coalition

- Created by US Department of Energy to reduce reliance on petroleum products and improve air quality.
- Convene public/private stakeholder partnerships to share alternative fuel and advanced technologies resources and information that reduce fuel use and related air pollution.
- Seeking partners in Central, Eastern and Northeastern NC
- Free of charge
- Benefits include educational opportunities, networking opportunities, and guidance on funding opportunities. We will work with stakeholders on developing workshops and trainings in your regions.

Eligible Stakeholder Groups

- Federal, State and local governments such as City, Town and County Councils, or a government as a whole
- Utilities, Electric Coops, and other alternative fuel providers
- Vehicle dealerships, fuel and recharging equipment suppliers
- Private fleets, taxis, delivery fleets and private refuse haulers
- School districts, Colleges and universities
- Airports, port authorities, and Transit agencies
- Alternative fuel vehicle and engine manufacturers
- Environmental organizations
- Local businesses and other stakeholders

How to Join

- Use your internal processes to decide as an organization whether you wish to join (often a board vote)
- Sign-On as a stakeholder using the Google Form so that we know who the point of contact is and your specific interests.
- In the Google form, you can indicate whether your organization can be listed as a signatory on the public sign-on letter supporting the creation of the coalition. This letter will ultimately be sent to the U.S. Department of Energy.

6. Letter of Support for the NC Clean Fuels Coalition

Looking for a motion to recommend approval of the Upper Coastal Plain Rural Planning Organization joining the NC Clean Fuels Coalition.

NC STATE UNIVERSITY

Clean Transportation Program

- We work to propel the development, awareness and use of alternative fuels and advanced transportation technologies through:
 - technical assistance, including trainings and fleet assessments
 - education and outreach initiatives, including workshops, meetings, conferences and marketing campaigns highlighting the benefits of using clean transportation technologies
 - administering clean transportation technology grants

UCPRPO TCC Meeting

Edgecombe County - Johnston County – Nash County – Wilson County

March 1, 2022

6a. Letter of Support Passenger Rail Study between Raleigh and Eastern NC

Looking for a motion to recommend approval of the Upper Coastal Plain Rural Planning Organization Letter of support for a Passenger Rail Study between Raleigh and Eastern NC.

March 9, 2022

NC Dept. of Transportation
Transportation Planning Division
Jamal Alavi, Director
1554 Mail Service Center
Raleigh, NC 27699-1554

Dear Mr. Alavi,

The Upper Coastal Plain Rural Planning Organization (UCPRPO) is pleased to support the Rail Division's State Planning, and Research (SP&R) Funds application for a Feasibility Study of a passenger rail service from Raleigh to Greenville.

The UCPRPO has maintained a strong interest in a potential passenger rail connection within the urbanized area to open a passenger rail corridor to the City of Raleigh within the State of North Carolina Piedmont service route.

The current US 264 and US 64 routes between Raleigh and Eastern North Carolina is projected for increased growth. This year, the I-587 route final signage will be completed, and US 64 will become I-87 with future improvements. The corridor reflects the upward trend that the UCPRPO is experiencing in terms of economic growth. The potential connection between Raleigh and Greenville would allow further regional transportation development and connections to cities in between as each metropolitan area develops alternative modes of transportation and regional connectivity.

We thank you for the opportunity to apply.

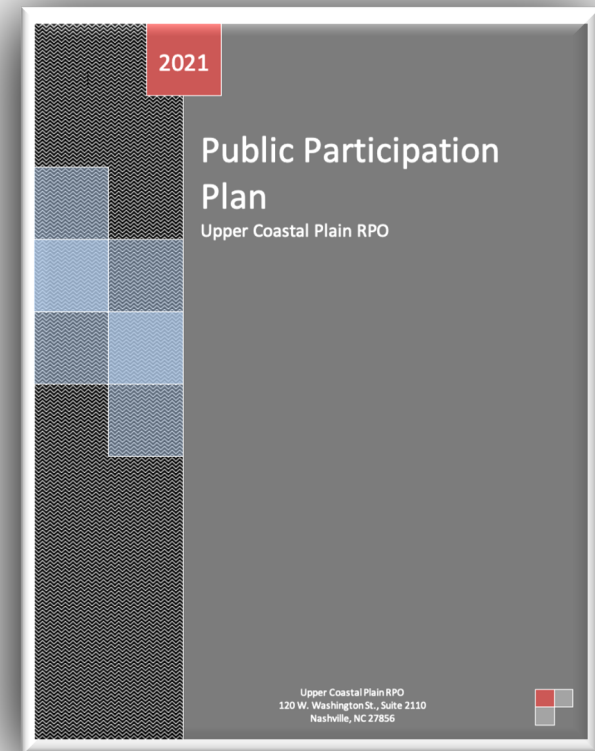

Sincerely,

C.B. Brown
UCPRPO TAC Chair

7. Public Participation Plan (PPP)

- Public involvement is a very important component of the UCPRPO's input and decision-making process and public involvement is synonymous with public participation.
- The PPP provides a guidance and policy in engaging the public in the transportation planning process.

Looking for a motion to adopt the UCPRPO's Public Participation Plan (PPP) and recommend adoption by the TAC.

UCPRPO TCC Meeting

Edgecombe County - Johnston County – Nash County – Wilson County

March 1, 2022

8. Planning Work Program FY2223 (PWP)

A copy of the proposed FY2223 PWP was included within the TCC agenda packet.

The Total awarded funding for the RPO Program is \$140,048.00.

The program requires a 20% local match that is charged to each County member.

8. NC Statewide Bike Route Update

The NC bicycle route system was developed in 1974 because of the Bicycle and Bikeway Act. It was last updated in 2013. NCDOT is now initiating another update to the route system based on a more current review of existing and planned bicycle facilities throughout the State. The public is invited to help identify additional potential changes to the system, based on recent roadway projects, local planning, and local knowledge and understanding of the routes.

To provide input visit the
NCDOT State Bike Route
System Public Input
Map:

NCDOT State Bike Route System Public Input Map

Welcome to the Online Input Map for the NCDOT State Bike Route System.

Purpose: Please use this interactive map to identify locations where changes to the state bike route system may be needed.

Background: NCDOT's last update to the state bike route system was in 2013, as part of the statewide bicycle and pedestrian plan, called WalkBikeNC. Those updates were outlined in Appendix 9.3 of that plan, [available here](#).

NCDOT is now in the process of making additional updates, based on a more current review of existing and planned bicycle facilities throughout the state. Your input is requested to help identify additional potential changes to the system, based on recent roadway projects, local planning, and local knowledge and understanding of the routes.

Thank you for your input!

Smithfield, NC 27577

15. Hwy 17/64 Association

The Hwy 17/64 Association met on January 26, 2022.

John Sullivan, FHWA provided a presentation:

- The IJA is the greatest investment in infrastructure in over 30 years.
- \$550B in new revenue in infrastructure with interactions with many different departments and programs.
- Discretionary funds for a wide range of recipients; NCDOTs not among some of these funds, concern on how to work with FHWA to ensure funds are spent controlled and correctly.
- Bridge Program – 15% must be spent on non-state bridges.
- Focus is on resiliency and equity or projects that help transportation disadvantaged.

15. Hwy 17/64 Association

The Hwy 17/64 Association met on January 26, 2022.

Beau Memory, NCDOT COO provided an overview:

- The NC State Budget provided maintenance funding increase.
- The IIJA Infrastructure law will help offset **SOME** material, R/W and labor cost increases.
- The current STIP being over programmed by \$11B due to NCDOT's cash crisis has brought about more transparency to NCDOT.
- NCDOT wants to engage with MPOs/RPOs as the 2023-2034 STIP is developed.
- Continue collaboration with NCDOT and private consultants.

15. Hwy 17/64 Association

The Hwy 17/64 Association met on January 26, 2022.

State Budget Overview

- ❖ Division of Highways annual increases:
 - ❖ General Maintenance Reserve \$70 million in FY22 and \$111 million in FY23
 - ❖ Contract resurfacing \$50 million
 - ❖ Roadside environmental \$18 million in FY 22 and \$19 million in FY23
 - ❖ Bridge program \$9.8 million (partially offset by statutory decrease)
 - ❖ Bridge preservation \$2.2 million
 - ❖ Pavement preservation \$2.6 million
 - ❖ Powell Bill \$12 million
 - ❖ Additional \$50 million contingency funds FY22

15. Hwy 17/64 Association

The Hwy 17/64 Association met on January 26, 2022.

Infrastructure Investment and Jobs Act

- \$7.2 billion over five years for federal-aid highway programs
- Funds will help offset some material, right of way and labor cost increases in STIP
- Supports resilient infrastructure
- Too early to know how funding will impact specific projects

15. Hwy 17/64 Association

The Hwy 17/64 Association met on January 26, 2022.

STIP Process Improvements

Cost Estimation Improvements

- Cost estimates for highway projects in the STIP will be based on express designs or better (engineering analysis performed)
- Cost estimates updated minimum of every 2 years
- Ensure appropriate contingencies are accounted for at all stages as projects go through the project development process to account for unknowns

15. Hwy 17/64 Association

The Hwy 17/64 Association met on January 26, 2022.

STIP Process Improvements

Value Engineering / Value Assessments

- Implementing cost containment strategies and integrating into the project development process
- To date, these efforts have saved over \$180 million on projects across the state

Project Budgets

- Divisions will be given budgets for their respective projects by tier
- Cost changes will be updated and reflected in the STIP
- Impacts from those cost changes will stay within each division
- This brings news transparency to the STIP process and ensures project overruns do not impact other divisions

15. Hwy 17/64 Association

The Hwy 17/64 Association met on January 26, 2022.

CY 2022 Letting Highlights in STIP

- 500 projects to be let
- \$361 million R/W
- \$46 million Utilities
- \$2.9 billion Construction
- Total: \$3.3 billion

**Next Hwy 17/64 Association Meeting Scheduled for April 27, 2022

NCDOT Division 4 - District Engineer Bobby Liverman is New York Man's Hero

Thanks to Bobby Liverman and Sybil Stancil from Division 4, Mr. Scott Curri from New York was able to retrieve his wallet lost along I-95 with valuable family photos and memorabilia inside.

Bobby found the wallet and Sybil successfully took the extra time and effort to hunt down Mr. Curri all the way into northern New York. Once he received his precious belongings back, he contacted NCDOT's public relations office and shared his story to ensure both Bobby and Sybil were recognized for their thoughtfulness in returning his wallet.
