North Carolina's Highway System

The Division of Highways supports the delivery of statewide transportation projects and is responsible for nearly 80,000 miles of road in North Carolina, making it the nation's second largest state-maintained highway system.

Traffic Safety

In 2016 **42%** 
of people killed on NC roads were **unbuckled** at the time of the crash.

In 2016 **20%** 
of crashes in NC involved a driver that was **distracted**.

More Than **800** **traffic cameras**
across the state allow NCDOT to **monitor conditions** to quickly respond to incidents and alert motorists through more than 300 dynamic message signs.*

The North Carolina Priority Freight Network

North Carolina’s freight system plays a critical role every day for every resident and business – delivering goods to the state’s businesses and residents, keeping manufacturing plants operating, the store shelves stocked, medicine flowing at area medical facilities, and food on the table.

Freight transportation supports jobs throughout the state’s economy, including in all of North Carolina’s key exporting industries.

The state’s freight assets that are most critical to **highway freight** transportation include:

4,220

Highway miles

1,011

Miles in North Carolina on the National freight network

Truck Parking

The inventory of truck-parking facilities in North Carolina consists of 167 facilities that provide nearly 4,800 parking spaces throughout the state.

Approximately 59 percent of these facilities are private and 41 percent are public; however, about 85 percent of the truck parking spaces are private.

Challenges in Highway Freight

Pedestrian & Bicycle

Major trails such as the Mountains-to-Sea Trail (1,000 miles in NC) and the East Coast Greenway (400 miles in NC) **continue to expand** through planning, design, and construction.

North Carolina cities recognize that providing walking and bicycling facilities has a **positive impact on retaining residents, recruiting major employers, and improving health and quality of life.**

↓ **5%**

The number of **teens getting their full provisional driver's license** dropped by 5 percent from 2008-2010 in North Carolina.**

Why are walking and bicycling important in North Carolina?

- 1) The growing senior population who will be more dependent on walking and biking.
- 2) The trend of car share, bike share, and e-scooters becoming more prevalent.

6.3%

of households in North Carolina **do not have access to a vehicle.**

Approximately 2.52 million of North Carolina's 7.92 million adults are considered obese. This is the **16th highest obesity rate in the country.*****

Evaluating the Economic Impacts of Shared Use Paths in North Carolina

Shared use paths, also known as greenways, provide a place for bicycle and pedestrian travel off the roadway. A study evaluating the economic impact of shared use paths in North Carolina found that a one-time \$26.7M capital investment in four greenway projects (Brevard Greenway, Little Sugar Creek, American Tobacco Trail, Duck Trail) supports:

\$19.4M Estimated annual **sales revenue** at local businesses along the four greenways.

\$684K Estimated annual **local and state sales tax** revenue from businesses along the greenways.

\$25.7M Estimated **annual savings** from the use of greenways due to more physical activity, less pollution and congestion, and fewer traffic injuries.

\$48.7M Estimated **business revenue** from greenway construction.

790 Jobs supported **annually** through greenway construction.

Return on investment: Every \$1 of trail construction supports \$1.72 annually from local business revenue, sales tax revenue, and benefits related to health and transportation.*

Key Challenges

- Many roadways lack sidewalks and bicycle facilities.
 - Retrofitting North Carolina communities and roadways to include biking and walking facilities can be challenging and costly.
 - Many North Carolina communities built between the 1940s and the 1990s, especially suburbs, were built without bicycle and pedestrian infrastructure, leaving large gaps in bicycle and pedestrian networks.
- Relative to the full NCDOT budget, bicycle and pedestrian transportation receives very little dedicated funding.
- Rural communities lack the resources and funding to improve their communities for walking and bicycling on their own.

Transit Network in North Carolina

Public transportation provides economic and health benefits to communities, as well as access to work, education, training, medical needs, transportation, and shopping. The transit network continues to shape communities because residents gravitate to mobility options that improve their quality of life and provide connections to opportunities.

98 transportation systems

In 2017, North Carolina's transit system provided more than 70 million trips to residents in all 100 counties in major urban centers, small towns and rural areas, from Manteo to Murphy.*

Benefits of Public Transportation for North Carolina

Every \$1 that North Carolina invests in transit generates approximately \$6 of total investment in the state from federal, state, and local sources.*

The capital and operational expenditures of North Carolina's transit systems provided \$1.28 billion in statewide business output, categorized as expenditure-related economic contribution.**

More than \$125 million in state and federal funds supported transit operations in all 100 counties. This funding supported more than 11,000 transit-related jobs, resulting in \$556 million in wages.*

There is an annual benefit of \$822 million to having a transit option in North Carolina communities.***

VISION:

Connecting North Carolinians to Opportunities

A daily necessity for many, public transportation not only helps reduce congestion, it can also improve quality of life and help make communities more attractive places to live and work.

For many citizens, transit services mean the difference between being stuck in one place and getting to education, jobs, medical appointments and other needs. Today and even more so in coming years, North Carolina's transit network provides vital connections to opportunities.

For those who cannot drive or just want a travel alternative, transit services mean more choices and flexibility, better access to work, school, training, medical appointments, and leisure activities.

With increased traffic and longer commute times, employers increasingly rely on quality transit for access to talented workers.

To help achieve the vision of a transit network that provides a vital connection to opportunities, the N.C. Department of Transportation's Public Transportation Division sets forth a mission of improving the quality of life for all North Carolinians by following three specific strategies*:

Building thriving, healthy communities - Partner for a successful future.

Improving access to jobs and economic development - Support local transit systems.

Connecting communities to opportunities - Build the Connected Statewide Network.

**Source: NCDOT PTD 2018 Strategic Plan*

MISSION:

Improve Quality of Life

Improve quality of life for North Carolinians by:

- Building healthy communities.
- Supporting job creation and economic development.
- Providing equal opportunities so all people can thrive.

Transit plays an integral role in strengthening communities, providing access to employment and to employees and enabling people to thrive in urban and rural places across the state.

The North Carolina Priority Freight Network

The movement of goods is a major contributor to North Carolina's economy and quality of life. North Carolina's freight assets are the backbone of the state's economic vitality, moving millions of tons of freight each year to businesses and residents across the state.

The majority of industries and economic activities that consumers and producers depend upon, from grocery stores and restaurants to retail shops, office supplies, and construction, rely on the distribution of goods.

Rail moved the second highest volume of freight in 2015, carrying 16 percent of the state's freight volumes with 14 percent in full carloads and 2 percent by intermodal cars. Rail assets in North Carolina that are most critical to freight transportation include:

North Carolina is served by two Class 1 railroads, CSX and Norfolk Southern, and 21 short lines and terminal railroads that connect state industries to domestic and international markets.

PROTECT • ENHANCE • GROW

Expand Rail Freight Market Opportunities

North Carolina is positioned to significantly grow rail freight in the state through its investments, partnerships with railroads, and global shifts in trade patterns.

Through strategic actions, North Carolina can expand its rail freight market making it more competitive for shippers and easing the pressures on the highway system.

Passenger Rail in North Carolina

North Carolina is served by six intercity passenger routes (including the state-supported *Piedmont* and *Carolinian* services) with stops in 16 cities and towns. Nine of those stops are along the busy, 174-mile Piedmont Corridor between Charlotte and Raleigh. Following the completion of the Piedmont Improvement Program, a fourth round-trip between Charlotte and Raleigh was added in 2018.

More Than **70%** of the state's population lives within a 30-mile radius of a passenger station.

11% of North Carolina residents residing within a 30-mile radius of train stops are served by Amtrak's bus service.

More Than **72 million** people in 13 states live within 30 miles of a station served by train service running through North Carolina.

All this means nearly **860,000** passengers boarded trains in North Carolina in 2017.

Air Cargo's Top Three Commodities

Air freight modes tend to transport the highest proportion of high-value, low-weight commodities due to the high cost of air transport when compared to surface modes. In 2015, the top transported commodity by air at North Carolina airports was electronics, comprising 21 percent of total tonnage (worth \$5.1 billion). The Value of Air Cargo

Compared to other modes, air cargo is a relatively small amount of North Carolina's overall freight activity. However, its per-ton value of more than \$117,800 is substantially greater than the values of cargo by highway (\$1,080 per ton), rail (\$380) and water (\$680).

ORGANIZATION & STAFFING

Rural Planning Organizations (RPOs) were established by the State of North Carolina in recognition of the need for more coordinated transportation planning in rural areas not within an MPO. An RPO is a voluntary organization of local officials formed through a Memorandum of Understanding to work cooperatively with NCDOT to plan rural transportation systems and to advise NCDOT on rural transportation policy. GS 136-212 identifies four primary duties for RPO's: 1) Develop, in cooperation with NCDOT, long-range, local and regional multimodal transportation plans, 2) Provide a forum for public participation in the transportation planning process, 3) Develop and prioritize suggestions for transportation projects the organization believes should be included in the State's Transportation Improvement Program, and 4) Provide transportation-related information to local governments and other interested organizations and persons. According to GS 136-211 (b), Rural Transportation Planning Organizations shall include representatives from contiguous areas in three to fifteen counties, or a total population of the entire area represented of at least 50,000 persons according to the latest population estimate of the Office of State Budget and Management. RPOs receive SPR funds from NCDOT's Transportation Planning Division (TPD).

The Upper Coastal Plain RPO was established in 2003. Our planning area includes the following counties: Edgecombe, Johnston, Nash, and Wilson Counties. Our Transportation Advisory Committee (TAC) has seventeen (17) members, and meets approximately every two months. Our Technical Coordinating Committee (TCC) has approximately 29 members, and meets approximately every two months. Please refer to **Appendix B** for lists of current TAC and TCC members with race, gender, and affiliation included.

Key responsibilities of the Coordinator include:

- Maintaining knowledge of Title VI and related requirements.
- Attending civil rights training when offered by NCDOT, FHWA or other federal agencies.
- Administering the Title VI Nondiscrimination Program and coordinating implementation of this Plan.
- Making sure internal staff and officials are familiar and complying with their Title VI obligations.
- Disseminating Title VI information internally and to the public, including in languages other than English.
- Presenting Title VI-related information to decision-making bodies for input and approval.
- Ensuring Title VI-related posters are prominently and publicly displayed.
- Developing a process to collect data related to race, national origin, sex, age, and disability to ensure minority, low-income, and other underserved groups are included and not discriminated against.
- Ensuring that non-elected boards and committees reflect the service area and minorities are represented.
- Promptly processing (receiving, logging, investigating and/or forwarding) discrimination complaints.
- Providing information to NCDOT and cooperating during compliance reviews and investigations.
- Promptly resolving deficiencies to ensure compliance with Title VI nondiscrimination requirements.

If the RPO Coordinator Title VI Coordinator changes, the Title VI Policy Statement and Title VI Assurances, will immediately be updated, and an updated policy statement (and nondiscrimination agreement, if standalone) will be signed by the new RPO Coordinator.

Staffing

We currently employ a staff of 1, which consists of the following job categories:

- RPO Coordinator

An organizational chart showing the Title VI Coordinator's place within the organization is located in **Appendix C**.

ENVIRONMENTAL JUSTICE (EJ)

In 1994, President William Jefferson Clinton issued Executive Order (EO) 12898, Federal Actions to Address Environmental Justice (EJ) in Minority Populations and Low-Income Populations. To comply with the EO, federal agencies developed EJ guidelines for their funding recipients, including Federal Highway Administration (FHWA) Order 6640.23A. Accordingly, Upper Coastal Plain Rural Planning Organization (UCPRPO) will make achieving EJ part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health and environmental effects of its programs, policies, and activities on minority populations and low-income populations.

EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation and enforcement of environmental laws, regulations and policies. The three fundamental EJ principles that guide USDOT (affiliated) actions are:

- To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including interrelated social and economic effects, on minority and low-income populations.
- To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process.
- To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.

To achieve EJ, our programs will be administered so as to identify and avoid disproportionately high and adverse effects on minority populations and low-income populations by:

- (1) Identifying and evaluating environmental, public health, and interrelated social and economic effects of our programs, policies and activities;
- (2) Proposing measures to avoid, minimize and/or mitigate disproportionately high and adverse environmental and public health effects, and interrelated social and economic effects, and providing offsetting benefits and opportunities to enhance communities, neighborhoods, and individuals affected by our programs, policies and activities, where permitted by law;
- (3) Considering alternatives to proposed programs, policies, and activities, where such alternatives would result in avoiding and/or minimizing disproportionately high and adverse human health or environmental impacts to minority and/or low-income populations; and
- (4) Eliciting public involvement opportunities and considering the results thereof, including soliciting input from affected minority and low-income populations in considering alternatives.
- (5) Adding an EJ section to plans and studies, such as Comprehensive Transportation Plans, Public Involvement Plans, and Corridor Studies.

EJ analyses will be conducted to determine if our programs, policies, or activities will result in disproportionately high and adverse human health and environmental effects on minority populations and low-income populations. EJ applies to our policies, such as where public meetings will be held, and our projects, such as when we plan to construct or expand a facility. Thus, we will look at various alternatives and seek input from potentially affected communities before making a final decision. Demographic data will be collected to document public involvement in the decision-making process. EJ analyses will remain on file indefinitely, and copies will be provided to NCDOT, upon request, during compliance reviews or complaint investigations. (See Appendix D – Tables for Race/Ethnicity and Poverty)

DATA COLLECTION/ANALYSIS/REPORTING

Data collection, analysis and reporting are key elements of a successful Title VI enforcement strategy. To ensure that Title VI reporting requirements are met, Upper Coastal Plain Rural Planning Organization (UCPRPO) will

collect and maintain data on potential and actual beneficiaries of our programs and services. This section contains relevant population data for our overall service area. The data provides context for the Title VI Nondiscrimination Program and will be used to ensure nondiscrimination in public outreach and delivery of our programs. Please refer to Appendix for demographic tables on Race & Ethnicity, Age & Sex, Disability, Poverty, and Household Income.

Population Locations

Recipients of FHWA funds are required to identify the characteristics and locations of populations they serve, particularly by race/ethnicity, poverty and limited English proficiency. We will document this narratively or through maps that overlay boundaries and demographic features on specific communities, and provide this information to NCDOT, upon request. (See Appendix E – Demographic Maps)

LIMITED ENGLISH PROFICIENCY (LEP)

Limited English Proficient (LEP) persons are individuals for whom English is not their primary language and who have a limited ability to read, write, speak, or understand English. These individuals reported to the U.S. Census Bureau that they speak English less than very well.

To comply with USDOT’s LEP Policy Guidance and Executive Order 13166, this section of our Title VI Plan outlines the steps Upper Coastal Plain Rural Planning Organization (UCPRPO) will take to ensure meaningful access by LEP persons to all benefits, services and information provided under our programs and activities. A four factor analysis was conducted to determine the LEP language groups present in our planning area and the specific language services that are needed.

Four Factor Analysis

This Four Factor Analysis is an individualized assessment that balances the following four factors:

- (1) The number or proportion of LEP persons eligible to be served or likely to be encountered by a program, activity, or service of the recipient or grantee;
- (2) The frequency with which LEP individuals come in contact with the program;
- (3) The nature and importance of the program, activity, or service provided by the recipient to people’s lives; and
- (4) The resources available to the recipient and costs.

Factor #1: *The number or proportion of LEP persons eligible to be served or likely to be encountered by the program, activity, or service of the recipient.*

There are several pockets of LEP groups within the Upper Coastal Plain Rural Planning (UCPRPO) area. These areas include areas in all four Counties served by the UCPRPO. In Edgecombe County, there is a block group northwest of the Town of Tarboro which contains a high population which have limited English speaking abilities. Johnston County contains several areas with limited English capabilities around Smithfield, Selma, Kenly, and a large portion of southeast Johnston County. Areas in southern Wilson contain pockets of non-English speaking citizens. Nash County also contains a small area in the south with limited English speaking population.

Factor #2: *The frequency with which LEP individuals come in contact with the program.*

The Upper Coastal Plain Rural Planning Organization holds approximately six Technical Coordinating Committee (TCC) meetings and six Transportation Advisory Meetings (TAC) meetings in which the public and potential LEP individuals are welcome to attend and provide input. While LEP participation is limited, LEP services are available upon request. In addition, during the development of Comprehensive Transportation Plans, Bike/Pedestrian plans, and other plans, there is additional opportunities to attend local input meetings and complete surveys to help obtain local input. During these planning processes LEP services such as providing translated surveys and translation services at local input meetings is provided.

Factor #3: *The nature and importance of the program, activity, or service provided by the recipient to people's lives.*

The UCPRPO provides transportation planning for the Counties of Edgecombe, Johnston, Nash, and Wilson. The following are the primary duties for the RPO:

- Developing, in cooperation with the Department (NCDOT), long-range, local and regional multimodal transportation plans;
- Providing a forum for public participation in the transportation planning process;
- Developing and prioritizing suggestions for transportation projects the organization believes should be included in the State's Transportation Improvement Program (STIP); and,
- Providing transportation-related information to local governments and other interested organizations and persons.

It is critical to obtain local input from all citizens regardless of part of our transportation planning and project prioritization process. As part of this input, it is also critical to ensure the UCPRPO makes it as easy as possible for local citizens to provide their input whether by providing translated surveys or providing translations services. By doing so will help ensure everyone's input is obtained.

Factor #4: *The resources available to the recipient and costs.*

As partners with NCDOT, the UCPRPO reaches out to the department to help with translation services when needed. In addition, the UCPRPO's Lead Planning Agency (Nash County) offers support in translating surveys or responding LEP groups. Having these additional resources helps provide low cost support to our LEP groups. The UCPRPO also utilizes local communities to ensure information is being disseminated to LEP groups. For example, during a recent Pedestrian Plan, surveys were disseminated to LEP groups by providing translated surveys in local utility bills. During the planning process, staff reaches out to local communities to try and locate any Community-based organizations (CBPs) that may represent LEP persons. This feature allows LEP groups to quickly translate the UCPRPO website to their known language. In addition, the UCPRPO utilizes Google's web translation services (<https://translate.google.com/manager/website/>) directly on the UCPRPO's website. It needs to be noted that the UCPRPO is a small organization with very limited funding it may have difficulty providing additional services other than offered by our partnering government agencies.

LANGUAGE ASSISTANCE PLAN

As a result of the above four factor analysis, a Language Assistance Plan (Plan) was not required. However, reasonable attempts will be made to accommodate any persons encountered who require written translation or oral interpretation services.

Language Assistance Measures

The following general language assistance measures are reasonable and achievable for our organization at this time:

- Translating public notices posted in the local paper and at stations, stops, and in vehicles into **any languages that meet the safe harbor threshold in Factor 1.**
- Vital documents—such as brochures with service times and routes—are translated into Spanish across the entire service area, and available in our facilities, doctor's offices and shopping centers.
- Making a concerted effort to inform LEP persons of available language assistance via staff, broadcast media, relationship-building with organizations, and our website.
- Posting vital bulletin board information and disseminating community surveys in various languages.
- Providing translation and interpretive services when appropriate (upon request or predetermined) at meetings.
- Determining how best to take public involvement to LEP groups directly, including through small group meetings.
- Where possible, utilizing or hiring staff who speak a language other than English and can provide competent language assistance.
 - Note: We will not ask community-based organizations (CBO) to provide, or serve as, interpreters at our meetings. Relying upon CBOs in that capacity could raise ethical concerns. If a CBO decides (on its own) to translate any materials for its constituents, or bring interpreters it trusts to our meetings, we will not object. That is their right.
- Using language identification flashcards to determine appropriate services.
- Establishing a process to obtain feedback on our language assistance measures.

Specific Measures by Language Group

- Spanish:

Written Translation and Oral Interpretation

Vital documents will be translated for each eligible LEP language group in our service area that constitutes 5% or 1,000, whichever is less, of the population of persons eligible to be served or likely to be encountered. Translated materials will be placed online and in appropriate public (or private) places accessible to LEP persons. The safe harbor provisions apply to the translation of written documents only, and do not affect the requirement

to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable. When appropriate, translation of any document will be communicated orally in the appropriate language.

In the event that the 5% trigger is reached for a LEP language group that is fewer than 50 persons, written notice will be provided in the primary language of that group of the right to receive competent oral interpretation of vital written materials, free of cost. The most effective method of notice, which could be an ad in the local newspaper or other publication, a radio commercial, or door hangers, will be determined in consideration of the circumstances on the ground and in coordination with LEP community contacts.

Staff Support for Language Assistance

- Our staff (including receptionists) will be provided a list of referral resources that can assist LEP persons with written translation and oral interpretation, including the Title VI Coordinator and consultants contracted to provide LEP services. This list will be updated as needed to remain current.
- All main offices will have available language assistance flashcards and materials translated into the languages that meet the safe harbor threshold. When encountering an LEP person, staff should present the individual with an iSpeak flashcard and let them choose the language. Do not assume their preferred language. Assistance may be sought from bilingual staff fluent in the identified language before contacting a referral resource. Document the encounter and report it to the Title VI Coordinator.
- Training: All employees will be instructed on our procedures for providing timely and reasonable assistance to LEP persons. New employee orientation will also explain these procedures to new hires. Staff routinely encountering LEP persons by telephone or in person will receive annual refresher training. All other employees will be reminded of LEP through annual Title VI program acknowledgements and basic Title VI trainings.

Project-Specific LEP Outreach

A project-specific four factor analysis will be conducted for any project or outreach event limited to a specific geographical area (i.e., the project study area or outreach area, respectively). Language assistance will be provided in accordance with the measures already outlined, including translating written materials for each LEP language group that is 5% or 1,000, whichever is less, of the project or outreach area population.

Monitoring and Updating the Language Assistance Plan

Monitoring of daily interactions with LEP persons will be continuous, thus language assistance techniques may be refined at any time. This Plan will be periodically reviewed—at least annually—to determine if our assistance measures and staff training are working. Resource availability and feedback from agency staff and the general public will be factors in the evaluation and any proposed updates. Among other practices, this process will include working with LEP community contacts to determine if our employees are responding appropriately to requests made with limited English or in languages other than English, and observing how agency staff responds to requests, including observing drivers or surveying riders. To the best of our ability, we will attempt to never eliminate a successful existing LEP service. Significant LEP program revisions will be approved or adopted by our board or designated official and dated accordingly. LEP data and procedures will be reviewed and updated at least once every three years.

DISSEMINATION OF TITLE VI INFORMATION

In accordance with 23 CFR 200.9(b)(12) and 49 CFR 21.9(d), the Upper Coastal Plain Rural Planning Organization will utilize community outreach and public education to disseminate Title VI information to our employees, contractors, sub-recipients and the general public. Reasonable steps will be taken to make the public aware of their rights and our obligations under Title VI through, including, but not limited to:

- Visibly posting our Title VI Policy Statement in public areas at our facilities, on our website, at our meetings, and prominently in any documents and reports we distribute;

- Placing notices in newspapers and publications with a large circulation among minority groups in the general vicinity of projects and activities. Ads in newspapers and other publications shall include the following:
 - “Upper Coastal Plain Rural Planning Organization (UCPRPO) operates without regard to **race, color, national origin, limited English proficiency, sex, age or disability**. For more information on our Title VI program, or how to file a discrimination complaint, please contact 252-459-1545; jsalmons@ucprpo.org.”
- Translating information into languages other than English that meet the LEP safe harbor threshold;
- Incorporating Title VI language into our contracts and agreements (See Appendix C for Title VI Contract Language); and
- Ensuring any contractors and sub-recipients we have also disseminate Title VI information.

Please refer to our Public Involvement Plan (PIP) for additional outreach methods we employ to comply Title VI. Our PIP can be found here: www.ucprpo.org

REVIEW OF ORGANIZATIONAL DIRECTIVES

It is the responsibility of every official who develops policies, procedures, manuals, guidelines, and other directives to ensure they have been reviewed for Title VI compliance. All staff members will assist in carrying out this requirement by making sure drafts of these documents are submitted to the Title VI Coordinator to ensure Title VI requirements are included.

Basic training will cover all sections of this Plan and our overall Title VI obligations. Staff may receive specialized training on how Title VI applies to their specific work areas. Those who routinely encounter the public, such as office personnel, and vehicle drivers, will receive annual refresher training. Trainings will be provided or organized by the Title VI Coordinator and will often coincide with updates to our nondiscrimination policies and procedures. Records of staff trainings, such as agendas, sign-in sheets, copies of calendars, and certificates, will remain on file for at least three years (and in personnel files).

COMPLIANCE AND ENFORCEMENT PROCEDURES

FHWA recipients must have mechanisms in place to enforce compliance with Title VI. Upper Coastal Plain Rural Planning Organization (UCPRPO) utilizes internal training, meetings, monitoring contractors, technical assistance, and findings from periodic NCDOT reviews to identify deficiencies and potential discrimination. If NCDOT identifies deficiencies, Upper Coastal Plain Rural Planning Organization (UCPRPO) will correct all deficiencies within 90 days based on a Corrective Action Plan (CAP). If attempts by NCDOT to resolve a compliance issue are unsuccessful, NCDOT may take any or all of the following steps with FHWA's concurrence:

- a. Canceling, terminating, or suspending the contract or agreement in whole or in part;
- b. Refraining from extending any further assistance to the recipient under the program with respect to which the failure or refusal occurred until satisfactory assurance of future compliance has been received from the recipient.
- c. Taking such other action that may be deemed appropriate under the circumstances, until compliance or remedial action has been accomplished by the recipient.
- d. Referring the case to the FHWA for appropriate administrative or legal proceedings.
- e. Other means authorized by law.

To ensure compliance with Title VI, Upper Coastal Plain Rural Planning Organization (UCPRPO) will take proactive steps to prevent discrimination in our programs and activities, including the following:

INVESTIGATIVE GUIDANCE

- A. Scope of Investigation** – An investigation should be confined to the issues and facts relevant to the allegations in the complaint, unless evidence shows the need to extend the issues.
- B. Developing an Investigative Plan** – It is recommended that the investigator (i.e., Title VI Coordinator or other official trained to conduct Title VI investigations) prepares an Investigative Plan (IP) to define the issues and lay out the blueprint to complete the investigation.
