### UPPER COASTAL PLAIN RURAL PLANNING ORGANIZATION

July 9, 2019

### **RPO Transportation Coordinating Committee Minutes**

### Attendance

<u>TCC</u> Grona Jones, Wilson Stephen Wensman, Smithfield Jae Kim, Spring Hope Tim Robbins, Benson Tracy Shearin, Red Oak Adam Tyson, Nash Valerie Brookens, Wilson's Mills Cynthia Jones, Edgecombe Catherine Grimm, Tarboro James Diggs, Wilson NCDOT Jimmy Eatmon, NCDOT-Division 4 Carlos Moya, NCDOT TPD Craig Midgett, NCDOT-Division 4 Bobby Liverman, NCDOT Other Jordon Reedy, Rocky Mount MPO Robert Hiett, UCPCOG Bob League, Rocky Mount MPO David Murray, Wilson Malcolm Johnson, Wilson Mark Johnson, Wilson

#### **UCPRPO**

James Salmons

#### Introduction

- Welcome & Introductions Bill Bass TCC Chair In Mr. Bill Bass's absence Mr. Salmons (UCPRPO) welcomed everyone and asked everyone to introduce themselves and then called the meeting to order.
- Approval of Agenda
   Mr. Salmons asked if everyone had an opportunity to review the agenda and asked if anyone had any
   additions to be made to the agenda. Being none and UPON A MOTION by Mr. James Diggs
   (Wilson), second by Mr. Adam Tyson (Nash) the agenda was unanimously approved as written.
- 3. Minutes May 8, 2019 After reviewing the Minutes for the May 8, 2019 TCC and UPON A MOTION by Mr. Stephen Wensman (Smithfield), second by Ms. Tracy Shearin (Red Oak) the minutes for the May 8, 2019 meeting were unanimously approved.
- 4. *Member Updates* Each member provided a brief highlight of activities within each member's jurisdiction.

### **Action Items**

- 5. New Chair/Vice Chair Nominations and Election for FY1920 Ms. Cynthia Jenkins (Edgecombe) was nominated as Chair. UPON A MOTION by Adam Tyson (Nash), second by Stephen Wensman (Smithfield) James Diggs (Wilson) was elected to Chair. Mr. Mark Johnson (Wilson) was nominated as Vice Chair. UPON A MOTION by Tracy Shearin (Red Oak), second by Stephen Wensman (Smithfield) Adam Tyson (Nash) was elected to Vice Chair.
- 6. Resolution of support for Smithfield Pedestrian Plan Grant Mr. Stephen Wensman (Smithfield) requested support for the Town of Smithfield's Pedestrian Planning Grant application. UPON A MOTION by Valerie Brookens (Wilson's Mills), second by Mark Johnson (Wilson) the Resolution of support for the Smithfield Pedestrian Planning Grant was adopted unanimously.
- 7. Resolution of support for UCPRPO to apply for Mountains to Sea Trail Corridor Feasibility Study

Mr. Salmons provided a brief back ground on the request from the NC State Parks Department's request to help provide a Feasibility Study to extend the existing greenway in Clayton to the existing

### UPPER COASTAL PLAIN RURAL PLANNING ORGANIZATION

greenway in Smithfield. The proposed greenway is planned to be part of the NC Statewide Mountains to Sea Trail. **UPON A MOTION** by Catherine Grimm (Tarboro), second by Tim Robbins (Benson) the Resolution of support to help apply for planning funds to provide a Feasibility Study for the Mountains to Sea Trail between the Town of Clayton and Smithfield was unanimously approved.

### Discussion

8. Review current Draft STI P6 Projects List

Members were provided with the most current Draft list of proposed STI P6 projects. The deadline to submit projects is currently December 20, 2019. The goal is to have a complete list by September to present to the TAC and to have plenty of time to receive public input. Members were asked to carefully review the list and to let staff know if there were any projects within their areas that needed to be added or omitted. The list included all modes of transportation.

9. New STI P6 Calendar Members were provided with the most current STI P6 calendar with revised due dates.

### Reports

10. US 70 Commission

It was reported the next US 70 Commission meeting is scheduled for July 19<sup>th</sup> at the Carteret County Convention Center. Mr. Salmons explained that the US 70 Commission was made of elected officials along the US 70 corridor from Raleigh to Morehead City and that organization strongly supports all of eastern North Carolina.

- 11. Hwy 17/64 Association NC Build Grant to upgrade US 64 to Interstate (I-87)
   Nash County hosted the most recent meeting and there was an update on the CCX Intermodal project.
   In addition, members were provided with an update on the US Department of Transportation's
   BUILD Grant recently submitted by NCDOT for the I-87 corridor to upgrade US 64 to Interstate
   standards.
- 12. Legislative Update

Staff reported that it appeared that the local match adjustment for pedestrian facilities did not carry over into the final budget presented and vetoed by the Governor. The budget did include a \$7.4 million increase in Powell Bill Funds for communities smaller than 200,000, however since the budget was vetoed it is hard to tell if it would remain in the final budget. In addition, SB 68 which provides for a lower match for relocation of utilities for transportation projects for smaller communities was still moving through committees within the General Assembly.

13. NCDOT Division 4

Division 4 reported the new Draft STIP is expected to be released in August. It is anticipated that some projects may be pushed back due to recent expenses due to storm recovery efforts and costs due to the Map Act. It was announced that Craig Midgett would be moving to Division 1.

14. NCDOT Planning Division (TPD) No report provided.

### **Other Business**

**15.** *TCC Member Comments* There were no member comments.

### **Public Comment**

*16. Public Comment* There was no public comment.

#### Upcoming meeting:

The next meeting is tentatively scheduled for Tuesday, September 10, 2019 at 11:00am.

**UPON A MOTION** from Catherine Grimm (Tarboro) was made to adjourn and a second motion was made by Stephen Wensman (Smithfield) and the meeting was adjourned.

Respectfully submitted,

James Diggs, TCC Chair

James M. Salmons, UCPRPO

## Planning for Healthy & Active Communities 09.10.2019

Melissa Rockett Built Environment Coordinator NC Division of Public Health Yvonne Murphy Health Matters Associate NC State Cooperative Extension Overview of Complete Streets Policy and Resolution

### DPH Partnership Opportunities

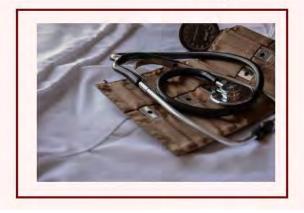

### **Objectives**

Edgecombe County Case Study

### Community and Clinical Connections for Prevention and Health Branch (CCCPH) Mission

To work with partners to **create** physical activity and healthy eating opportunities; **improve** quality and delivery of clinical services and **connect** patients and their healthcare providers to community prevention and management programs with the goal of reducing obesity, diabetes, heart disease and stroke in North Carolinians of all ages

### Make the CONNECTION

Community & Clinical CONNECTIONS for Prevention & Health Branch NORTH CAROLINA Branch DIVISION OF PUBLIC HEALTH

### Physical Activity Access

CCCPH supports access to physical activity by partnering with community organizations and local governments to promote interventions in community design that connect activity-friendly routes with everyday destinations to increase access to places for physical activity for people of all ages and abilities.

Master Planning **Complete Streets** Safe Routes to Schoool **School Siting Policies** Zoning Codes & Land Use Laws, Economic development incentives

Key Priorities: Supporting

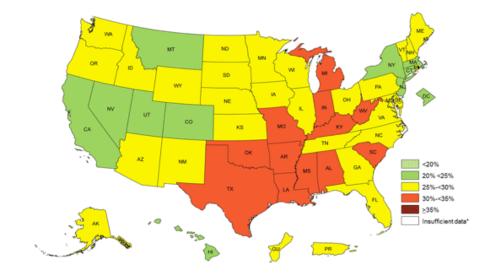

Programs that Work

## Why plan for health?

### Prevalence<sup>¶</sup> of Self-Reported Obesity Among U.S. Adults by State and Territory

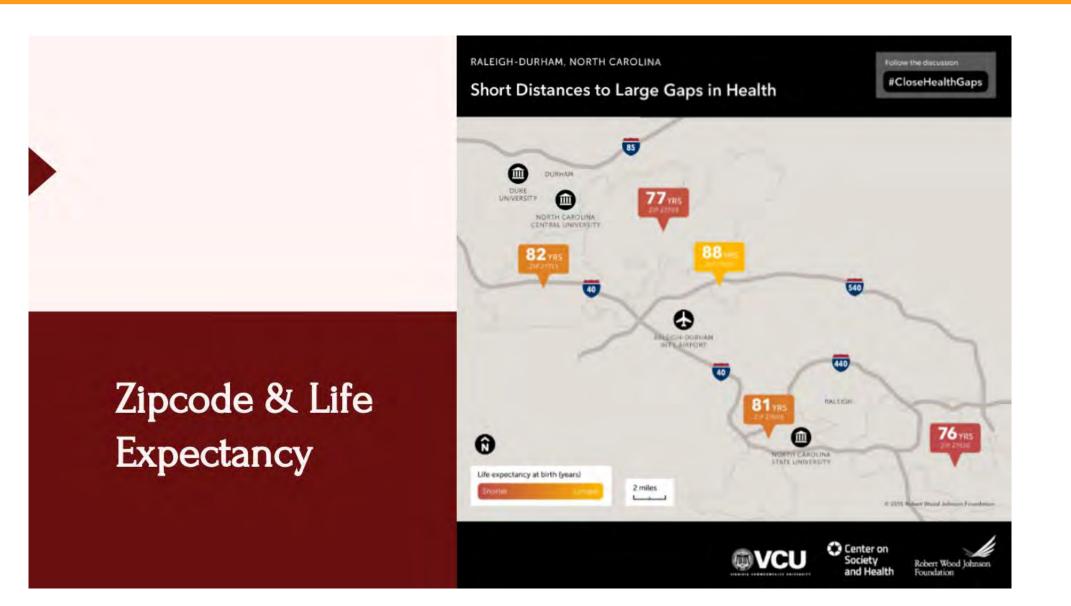

<sup>1</sup> Prevalence estimates reflect BRFSS methodological changes started in 2011. These estimates should not be compared to prevalence estimates before 2011.

### **2011** 2012 2013 2014 2015 2016 2017

\*Sample size <50 or the relative standard error (dividing the standard error by the prevalence) ≥ 30%.</p>

## Complete Streets: Streets for everyone, no matter who they are or how they travel.

A policy of doing business that ensures "interdependent, multimodal transportation networks that safely accommodate access and travel for all users." This policy requires NCDOT planners and designers consider and incorporate multimodal facilities in the design and improvement of all appropriate transportation projects in North Carolina.

### Policy adopted in July 2009

Planning and Design Guidelines-June 2012

• These guidelines address planning, project scoping and design

Policy resolution in August 2019

Complete Streets Workshops:

- Fall 2012
- June 2019

# Who wants Complete Streets?47%54%56%

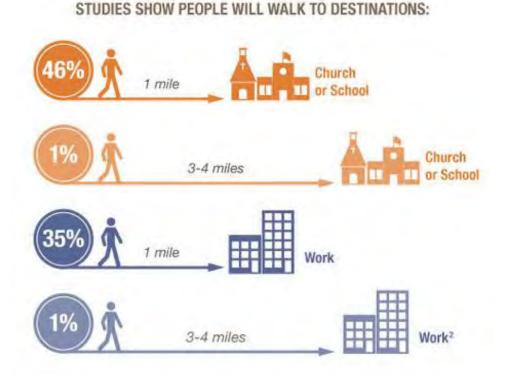

of older Americans say it is unsafe to cross a major street near their home. of older Americans living in inhospitable neighborhoods say they would walk and bike more often if the built environment improved. express strong support for adoption of Complete Streets policies.

### Who wants Complete Streets?

Millennials are driving less and looking for other transportation options.

### **Communities with Sidewalks**

## People will walk

## **Incomplete Streets are Unsafe**

More then 40% of pedestrian deaths in 2007 and 2008 occurred where no crosswalk was available.

Safety issues are especially higher for:

•People of color

Low-income communities

•Older adults

•Children

### People Killed While Walking

Benefits of Complete Streets

What makes a street complete?

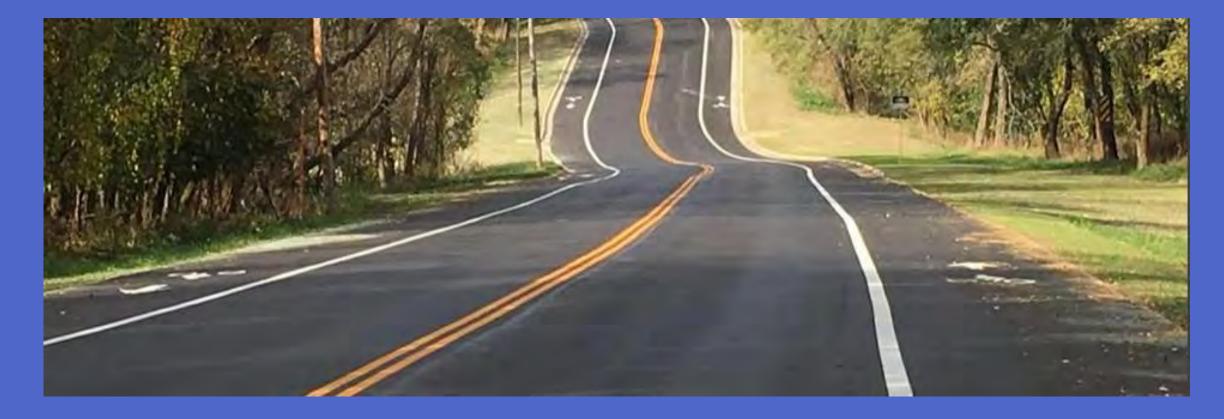

Before & After 6<sup>th</sup> Ave S, Seattle, Washington Image courtesy of National Complete Streets Coalition

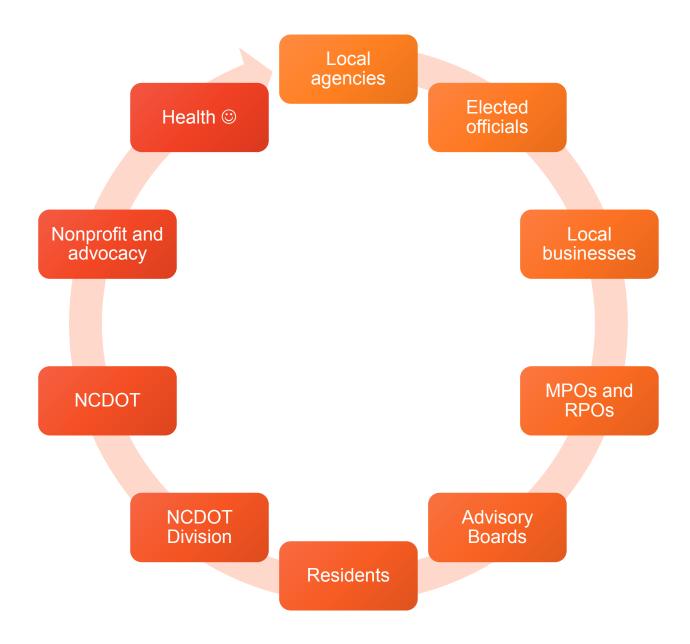

## Rural

## Collaboration is Key

No matter your position, this is the **BEST** opportunity to engage and support Complete Streets Most NCDOT projects must come from an adopted transportation or other plan for funding consideration

### Example from STIP

DURHAM	SR 1118 (FAYETTEVILLE ROAD)	U-6021 DIV	WOODCROFT PARKWAY TO BARBEE ROAD IN DURHAM. WIDEN TO 4-LANE DIVIDED FACILITY WITH BICYCLE / PEDESTRIAN ACCOMMODATIONS.	1.4	20039

### **Planning Resources**

- NCDOT Bicycle and Pedestrian Division sponsors planning grants to support development of plans
- Assessment of plans adopted since 2008:

Measuring Progress of Bicycle and Pedestrian Plans in North Carolina

## Implementation

### Challenges:

- Lack of funding
- Limited staff
- Limited right-of-way
- Difficulty coordinating with partners (e.g. town policy vs county policy)

NCDOT approach is to collaborate with cities, towns and communities to ensure a shared Complete Streets transportation vision.

## Use shared long-range planning to meet Complete Streets goals.

- Optimize connectivity
- Network interdependence
- Context sensitive options
- Multimodal transportation choices

### Capture short-term opportunities through maintenance projects.

- Road diets and bike lanes with paving and re-striping
- Sidewalk installation-piggyback with other public works, utilities projects

Following implementation, local agencies will be responsible for maintenance of elements "behind the curb" (e.g. sidewalks, greenways)

## Maintenance Opportunities

ONGOING MAINTENANCE AND OPERATIONS ACTIVITIES MAY PROVIDE FUTURE OPPORTUNITIES FOR COMPLETE STREETS IMPLEMENTATION CHECK THE HIGHWAY MAINTENANCE IMPROVEMENT PROGRAM FOR PLANNED RESURFACING ACTIVITIES RESTRIPING OR RECONFIGURING ROADWAYS IF A COST-EFFECTIVE WAY TO IMPLEMENT SOME COMPLETE STREETS PROJECTS

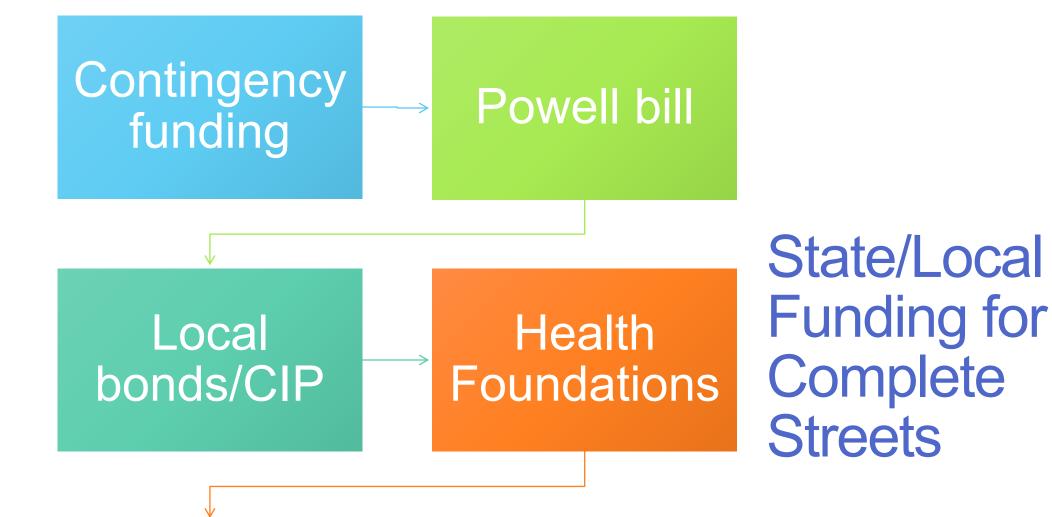

## **Cost Share**

Complete Streets Cost Share						
Facility Type	In Plan	Not in Plan, but Need Identified	Betterment			
Pedestrian Facility	NCDOT pays full	Cost Share	Local			
Bicycle Facility	NCDOT pays full	NCDOT pays full	Local			
Side Path	NCDOT pays full	Cost Share	Local			
Greenway Crossing	NCDOT pays full	Cost Share	Local			
Bus Pull Out	NCDOT pays full	Cost Share	Local			
Bus Stop (pad only)	NCDOT pays full	Cost Share	Local			

\*Maintenance: Bike/ped improvements within a municipal boundary are subject to local maintenance. A local maintenance agreement will be executed prior to the completion of a construction project. If a local maintenance agreement is not executed to maintain a bicycle or pedestrian facility, NCDOT will maintain the facility after construction if it lies within NCDOT right-of-way.

Source	Purpose	Projects	
Surface Transportation Block Grant Project, Programmed through STI	Preserve or improve bicycle/pedestrian facilities	Examples of construction activities include, bike/ped facilities, crosswalks, traffic calming and curb ramps	
Transportation Alternatives Set-Aside, Programmed through STI	Transportation Alternative Projects	On-road and off-road pedestrian and bicycle facilities, non-river access to public transportation, construction of boulevards in the place of former divided highway, Safe Routes to School Projects, ADA improvements	
Congestion Mitigation and Air Quality Improvement Program	Construction: walkways and bicycle transportation		
Federal Transit Administration Capital Funds	Support projects designed to enhance public transportation service/use and are physically and functionally related to transit facilities. Must provide access to transit.	Metropolitan and statewide and nonmetropolitan transportation planning, urbanized area formula program, federal grants for rural areas, section 5310	
Highway Safety Improvement Program	Program to achieve significant reduction in traffic fatalities and serious injuries on public roads. NCDOT evaluates 10 years of bike/ped crash data.	States must implement a Strategic Highway Safety Plan	
Statewide Planning and Research or Metropolitan Funds	2% set-aside from core federal funding programs.	Non-construction activities: engineering surveys, planning and funding of transportation systems, research and development, studies of surface transportation systems and taxation, planning of real- time monitoring elements	

### Funding Opportunities

### Other

- Revenue from parking in city-owned decks (not at meters)
- Vehicle registration fee (for general fund/street maintenance)
- Municipal service districts
- TDA occupancy tax revenues: ¼ can go to improvements linked to tourism

### Community engagement

Walking audits in areas of concern

## Partnership Opportunities

EcoCounter/Pedestrian Counter loaner program

National technical expertise available for Complete Streets projects through the Complete Streets Coalition

Trial and demonstrations support

## **Eco Counter PYRO-Box**

DPH Pedestrian Counters available for short-term use to support active transportation planning and project implementation.

- Data analysis available through eco counter data analysis platform, provides dozens of data analysis modules for dynamic data visualization, easily shareable dashboards and reports with partners
- 1-6 month loan
- Online check out system
- Proposal for use of counter to be included
- Data will be included in the NC Non-Motorized Volume Data
   Program
- Installation support from NC State ITRE
- Use & Potential: short-term demonstration projects, collect data to support need for facility or to support changes caused from project

# **NCDOT Resources**

- •Complete Streets Design Guidelines describes the planning and project development procedures, including required documentation to support the Complete Streets Policy
- •NCDOT Roadway Design Manual intended to serve as authoritative reference for Complete Streets design in accordance with guidelines of the American Association of State Highway and Transportation Officials
- •Complete Streets Implementation Guide

Smart Growth America Collaboration National Complete Streets Coalition; Complete Streets Workshops

- Each interactive day-long workshop builds local capacity to implement Complete Streets and strengthens relationships between transportation practitioners and community stakeholders.
- Two nationally recognized experts engage about 30 key decision-makers at the local, regional or state levels.

# Workshops include:

- Laying the Foundation for Complete Streets
- Complete Streets Policy Development
- Complete Streets Policy Implementation
- Complete Streets Design Considerations

National Complete Streets Coalition

# 2019 Pinetops Walking Audit

# June 11, 2019

# Walking Audit

# Walkability Checklist

# How walkable is your community?

Der

# Take a walk with a child and decide for yourselves.

Everyone benefits from walking, But walking needs to be safe and easy. Take a walk with your child and use this checklist to decide if your neighborhood is a friendly place to walk. Take heart if you find problems, there are ways you can make things better.

#### Getting started:

First, you'll need to pick a place to walk, like the route to school, a friend's house or just somewhere fun to go.

The second step involves the checklist. Read over the checklist before you go, and as you walk, note the locations of things you would like to change. At the end of your walk, give each question a rating. Then add up the numbers to see how you rated your walk overall.

After you've rated your walk and identified any problem areas, the next step is to figure out what you can do to improve your community's score. You'll find both immediate answers and long-term solutions under "ImprovingYour Community's Score..." on the third page.

# Results

The average walk audit scores given by the 18 individuals was 16, which indicates that there are several areas around the town that need some work to create safe and easy walking conditions for Pinetops residents to be more physical active. Specific issues are detailed below with representative photos.

100% of auditors found problems with sidewalks	<ul> <li>Not continuous</li> <li>Cracked/broken</li> <li>Blocked by poles, signs, shrubbery, dumpsters, etc.</li> <li>No sidewalks</li> </ul>
73% of auditors notes some problems with road crossings	<ul> <li>Road was too wide</li> <li>Traffic signal cycles were too long or too short for safe crossing</li> <li>No striped crosswalks or traffic signals</li> <li>Parked cars obstructing views</li> <li>Missing curb ramps or curb ramps in need of repair</li> </ul>
7% of auditors recorded concerns with driver behavior	<ul> <li>Speeding</li> <li>Speeding to make it through traffic lights or driving through traffic lights</li> </ul>

# Key Points of Concern

# Town Hall down to West Hamlet/Vidant Family Medicine

- Sidewalks or paths started and stopped
- Sidewalks broken and cracked
- Need for pedestrian crosswalks and/or pedestrian crossing signage
- Need school crossing sign and crosswalk at GW Carver Elementary School

# **Moving Forward**

After conducting the walk audit, the team met to debrief and brainstorm short and long-term goals based on the audit findings.

# Short-Term Goals (Within 1 Year)

- Provide education for the Pinetops community about walking and walkability. This could include:
  - 1. Encouraging walkers and bikers to utilize the right side of the street (with sidewalks)
  - 2. Recruiting residents to participate in future walk audits and efforts to promote walkability in Pinetops

3.Educating homeowners to use proper waste management strategies (ex: avoiding putting trash or debris on streets, locations of landfills, garbage facilities)

4. Encourage beautification efforts in neighborhoods

# • Install signage at key points along regular walking routes. This could include:

1.Installing signage at local parks to let residents know people might be walking or biking nearby (ex: Children at Play signs at crossing locations)

2.Installing signage to direct residents to local parks and other points of interest ("wayfinding")

3. Upgrading/replacing current park signage

4. Creating park maps to provide directional routes for ADA accessible areas, routes, accessible for strollers/wagons, and information about other important park locations (ex: closest bathrooms)

# Work with town and county officials on key maintenance issues along walking routes

1.Work with town maintenance staff to ensure that debris, grass, and weeds are removed on a regular basis 2.Partner with maintenance staff in Town of Pinetops to install signage for parks and wayfinding projects 3.Partner with town, county, and state staff to remove obstructions in roads and sidewalks that are unsafe and hazardous for walking

## Long-Term Goals (1-5 Years)

# Partner with DOT and other regional partners to address long-term infrastructure needs, including

1. School Crossing Sign and Crosswalk at GW Carver Elementary School

2.Need for ADA compliant sidewalks (non-existent throughout town)

3. High visibility pedestrian crosswalks at Town Hall & other busy intersections

4.Light signalization at busy intersections

5.Sidewalk repairs throughout the town (see audit photos)

6.Need for additional sidewalks to allow connectivity throughout the town primarily on W Hamlet towards school and clinic

## STATE OF NORTH CAROLINA DEPARTMENT OF TRANSPORTATION

ROY COOPER GOVERNOR JAMES H. TROGDON, III SECRETARY

#### MEMORANDUM

TO:	NCDOT Employees
-----	-----------------

FROM: James H. Trogdon, III, PE Secretary

DATE: August 30, 2019

SUBJECT: Complete Streets Policy Guidance

Attached is the Department's updated Complete Streets Policy, adopted by the Board of Transportation at the August meeting. This policy update is a result of nearly two years of careful analysis, engagement with our partners and collaboration across units to understand and address the challenges of delivering Complete Streets. Updating the Complete Streets Policy has been one of my priorities since returning to the Department, and I am committed to ensuring the Policy is implemented consistently across the state.

As we plan, design and construct the transportation network of the future, this policy update represents the Department's ongoing commitment to safe, multi-modal transportation. The attached Complete Streets Policy and Implementation Guide details my expectations for how Complete Streets will be planned, prioritized, designed, constructed and maintained across the state. My priority is to ensure that as a Department, we construct facilities that our communities want, need and will use.

Effective immediately, Highway Division projects that have not yet completed an Environmental Document will be expected to comply with the updated Policy. As we implement Complete Streets, we will refine our guidance and the Complete Streets Technical Team formed to aid in the development of the Policy update will continue to meet to oversee implementation.

# COMPLETE STREETS

#### A.09.0106

Business Category: Multi-Modal		Business Area: Bicy	cle & Pedestrian Division
Approval Date: 8/8/2019	Last Revision [	Date: N/A	Next Review Date: 8/8/20
Authority: Select all that apply: □ N/A ⊠ Requires Board approval □ Requires Federal Highways Administration (F □ Requires other external agency approval: Cliviname(s).	, ,,	external agency	<b>Policy Owner:</b> Bicycle & Pedestrian Division, Division of Highways
Definitions: <u>Complete Streets</u> is North Carolina's app accommodate access and travel for all u		pendent, multi-modal tra	nsportation networks that safely
<b>Policy:</b> Transportation, quality of life, and econor designed, and context-sensitive transpor "context-sensitive" imply that transportati of communities and the traveling public.	tation solutions.	To NCDOT, the designa	tions "well-planned', "well-designed" and
eliminate roadway deaths and in	tation modes, in ijuries using data al transportation r	support of <u>Vision Zero,</u> -driven prevention strate network in North Carolin	a statewide program which aims to egies; a such that the access, mobility, and

- Caring for the built and natural environments by promoting sustainable development practices that minimize impacts on natural resources, historic resources, businesses, residents, scenic and other community values, while also recognizing that transportation improvements have significant potential to contribute to local, regional, and statewide quality of life and economic development objectives;
- Working in partnership with local government agencies, interest groups, and the public to plan, fund, design, construct, and manage complete street networks that sustain mobility through walking, biking, transit and driving.

This policy requires NCDOT planners and designers consider and incorporate multimodal facilities in the design and improvement of all appropriate transportation projects in North Carolina. Routine maintenance projects may be excluded from this requirement if an appropriate source of funding is not available. Consideration of multimodal elements will begin at the inception of the transportation planning process and the decisions made will be documented.

The Department recognizes the types of roadway users and the way they interact with the transportation network is evolving as transportation technologies such as ride share, connected and autonomous vehicles, and electric vehicles become more prevalent. The Department will consider these evolving technologies and users in its planning and design guidelines.

This policy sets forth the protocol for the development of transportation networks that encourage non-vehicular travel without compromising the safety, efficiency, or function of the facility. The purpose of this policy is to guide existing decision making and design processes to ensure that all users are included during the planning, design, construction, funding, operation and maintenance of North Carolina's transportation network, and will not create barriers or hazards to the movements of those users.

### Scope:

This policy generally applies to all projects undertaken by NCDOT throughout the state.

There are many factors that must be considered when implementing the policy, e.g., number of lanes, design speeds, intersection spacing, medians, curb parking, etc. The applicability of this policy should not be construed as conclusive. Each facility must be evaluated for proper applicability. Notwithstanding the exceptions stated herein, all transportation facilities funded by or through NCDOT, and planned, designed, or constructed on state-maintained facilities, must adhere to this policy.

### Approach:

The Department is committed to collaborate with cities, towns, and communities to ensure pedestrian, bicycle, transit and evolving transportation technology options are included as an integral part of their total transportation vision. As a partner in the development and realization of their visions, the Department desires to assist localities, through the facilitation of long-range planning, to optimize connectivity, network interdependence, context sensitive options, and multimodal alternatives. During the Comprehensive Transportation Planning process, bicycle, pedestrian, transit, and other multimodal usage shall be presumed to exist along and across certain corridors (e.g. between residential developments, schools, businesses and recreational areas).

It is the policy of the Department of Transportation to fully replace existing Complete Streets facilities disturbed as a result of a highway improvement project.

### Planning and Design Guidelines:

The Complete Streets Planning and Design Guidelines were developed in 2012 to provide planners, designers and decision-makers with a framework for evaluating and incorporating various design elements into the planning, design, construction, and maintenance of the Department's transportation projects. The guidelines describe the planning and project development procedures, including required documentation, to support the Complete Streets policy. In addition, the guidelines describe how all roadway users will share the right of way safely and provide special design elements and traffic management strategies to address unique circumstances.

Planning, implementation and design guidelines will be updated periodically to address changes in Departmental policies and procedures and to reflect new transportation technologies and innovations.

The NCDOT Roadway Design Manual is intended to serve as the authoritative reference for Complete Streets design in accordance with adopted guidelines of the American Association of State Highway and Transportation Officials and other adopted or approved State and Federal guidelines and standards.

#### Exceptions to Policy:

It is the Department's expectation that suitable multimodal facilities will be incorporated in all appropriate new and improved infrastructure projects. Exceptions to this policy will be considered where exceptional circumstances that prohibit adherence to this policy exist. Such exceptions include, but are not limited to:

- Facilities that prohibit specific users by law;
- Areas in which the population and employment densities or level of transit service around the facility does not justify the incorporation of a multimodal facilities;
- Emergency repairs that require immediate attention.

As exceptions to policy requests are unique in nature, each will be considered on a case-by- case basis. Each exception must be approved by the Complete Streets Review Team consisting of the following or their designees:

- Complete Streets Program Administrator,
- State Traffic Engineer,
- State Roadway Engineer,
- Integrated Mobility Division Director, and
- Division Planning Engineer/Corridor Development Engineer.

Routine maintenance projects may be excluded from this requirement if an appropriate source of funding is not available.

#### **Policy Distribution:**

It is the responsibility of all employees to comply with Departmental policies. Therefore, every business unit and appropriate private service provider will be required to maintain a complete set of these policies. The Department shall periodically update departmental guidance to ensure that accurate and up-to-date information is maintained and housed in a policy management system.

#### **Related Documents:**

This policy builds on current practices and encourages creativity for considering and providing multi-modal options within transportation projects, while achieving safety and efficiency. Specific procedural guidance includes:

- Highway Landscape Planting Policy (dated 6/10/1988)
- Pedestrian Policy Guidelines Sidewalk Location (Memo from Larry Goode, 2/15/1995)
- Board of Transportation Resolution: Bicycling & Walking in North Carolina, A Critical Part of the Transportation System (adopted 9/8/2000)

# RESOLUTION FOR THE BOARD OF TRANSPORTATION IN SUPPORT OF IMPLEMENTATION FOR THE NORTH CAROLINA DEPARTMENT OF TRANSPORTATION COMPLETE STREETS POLICY THAT WILL ENHANCE SAFETY AND PROVIDE AN EFFICIENT NETWORK OF ALL TRANSPORTATION MODES

**WHEREAS,** The North Carolina Department of Transportation is a state agency created in Article 8 of Chapter 143B of the North Carolina General Statutes; and

**WHEREAS**, the general purpose of the Department of Transportation is to provide for the necessary planning, construction, maintenance and operation of an integrated statewide transportation system for the economical and safe transportation of people and goods provided by the law; and

**WHEREAS**, the Department of Transportation Complete Streets Policy evaluation focuses on process improvements that ensures consideration and implementation of an integrated statewide transportation system; and

**WHEREAS,** the Department of Transportation's 2009 Complete Street Policy has been updated to reflect this intent and purpose; and

**WHEREAS**, the Department of Transportation's Complete Street Policy focuses on actions to strengthen institutional support;

## NOW, THEREFORE, BE IT RESOLVED:

That the North Carolina Board of Transportation hereby adopts the 2019 amendments to the Complete Streets Policy.

North Carolina Department of Transportation Complete Streets Implementation Guide

completestreets

The North Carolina Department of Transportation (NCDOT) Complete Streets Implementation Guide (Guide) is designed to assist NCDOT staff engineers, project managers and designers in implementing the Complete Streets Policy as adopted by the NCDOT Board of Transportation. This document provides comprehensive guidance for incorporating a complete streets approach into NCDOT's planning, programming, design, and maintenance processes.

The prime elements of this Guide are the following:

- 1 Planning
- 2 Project Development
- **3** Resurfacing and Maintenance Activities
- 4 Work Zone Accommodations
- **5** Related Policies
- 6 Cost Share
- 7 Design Guidance
- 8 Administration

This Guide will be updated periodically as processes and procedures are refined, with a comprehensive review and update every five years, beginning in August 2024.

## **1** Planning

This section outlines the approach for ensuring Complete Streets elements are evaluated as a roadway project is planned, prioritized and programmed. Each roadway project will include the preparation of a Complete Streets Project Sheet as detailed below. The Project Sheet will identify planned multi-modal facilities and document any exceptions considered in the course of project development.

#### 1.1 Complete Streets Project Sheet (Prioritization 6.0)

For projects where a project sheet has yet to be developed as part of the CTP process, a Complete Streets Project Sheet will be used to document the types of pedestrian, bicycle, public transit, and other multimodal facilities to be evaluated in each highway project. This sheet will be submitted during the Strategic Prioritization submittal process in conjunction with the needs statement required for Prioritization. The Complete Streets Project Sheet will carry forward as a key document in the Project Advancing Transportation through Linkages, Automation, and Screening (ATLAS) workbench, allowing any personnel to access the project later in development.

#### **1.2 Complete Streets Project Sheet (within the CTP)**

Comprehensive Transportation Plans (CTP) developed through NCDOT's Transportation Planning Division identify projects to address network deficiencies for motorists, pedestrians, bicyclists, and transit users. Complete Streets Project Sheets are being introduced into the CTP process. The Project Sheet outlines the recommended improvement, propose a typical cross-section for highway projects, explains the identified need for the project, provide current and projected traffic volume and capacity, identify high-level environmental constraints and provides Complete Street recommendations. These sheets lay the foundation for Complete Streets facilities and serve as a starting point for projects selected for Strategic Prioritization submittal and carry forward as a key document in the project development phase.

#### **1.3 Exceptions to Policy**

The Complete Streets Project Sheet will capture requests and approvals of any exceptions to the Complete Streets Policy. Documentation of exceptions will reference the reason for such action, including, unique site constraints, prohibition of pedestrians or bicyclists on the facility or a lack of existing or planned public transit service. Exceptions may be requested and considered any time throughout the process through the Complete Streets Program Administrator in the Integrated Mobility Division. Exceptions are automatically granted if requested by the local government.

A multi-disciplinary Complete Streets Review Team will review all requests for exceptions to the Complete Streets Policy. The Review Team will consider the justification for the proposed exception as detailed on the Complete Streets Project Sheet and decide whether to recommend approval of the exception.

If the exception is not approved, the Review Team will initiate additional discussion with relevant parties, including the Project Manager, to explore options and alternatives for including appropriate multi-modal elements in the project. If necessary, the decision will be elevated to the Chief Deputy Secretary and/or Secretary for a final decision.

The Complete Streets Review Team will consist of:

- Complete Streets Program Administrator,
- State Traffic Engineer or designee,
- State Roadway Engineer or designee,
- Integrated Mobility Division Director or designee, and
- Division Planning Engineer/Corridor Development Engineer or designee.

## 2 Project Development

The project development phase carries a project from concept to the specific street design to be constructed.

The Complete Streets Project Sheet will carry forward with a project through the project development phase. Project managers will use the Complete Streets Project Sheet early in project development to assist with determining facilities to be included in preliminary project design alternatives.

The Complete Streets Project Sheet will be a 'key document' in the Project Advancing Transportation through Linkages, Automation, and Screening (ATLAS) workbench, allowing all personnel working on the project throughout the development process to refer to the information. Project ATLAS features a workbench tool to organize technical reports and data needed during project delivery. As part of the Workbench structure, the Project Manager will be responsible for documenting how complete street elements are reflected in the project design.

#### 2.1 Project Scoping

The Project Engineer shall coordinate with NCDOT's Integrated Mobility Division (IMD) on all programmed highway projects. The Integrated Mobility Division will participate in scoping meetings and provide a written summary memo identifying facility recommendations and design guidance as appropriate.

#### 2.2 Bridge Projects

The Complete Streets Project Sheet will be integrated into the Structures Management Planning Process for bridge replacements and refurbishments. Until that step is complete, project managers will communicate with the Integrated Mobility Division through scoping requests to incorporate complete streets elements in bridge designs. This will occur for each bridge replacement project undertaken by NCDOT.

Due to the long useful life of bridges, on bridges with shoulder approach sections, where:

- a pedestrian need is identified through an adopted plan, sufficient deck space will be made available on the replacement bridge for future construction of sidewalks.
- a bicycle need is identified through an adopted plan, sufficient width for bike facilities will be provided.
- a multi-use path or sidepath need is identified through an adopted plan, sufficient width for the appropriate facility will be provided on and/or below the structure.

#### 2.3 Equal or Better Performance of Facility

Conditions often change between the time a project is added to the STIP and the when the project development process begins that may support the incorporation of a different type of bicycle or pedestrian improvement than shown in an adopted plan. NCDOT will review an alternative facility to the bicycle and/or pedestrian facility type proposed in the adopted plan upon the written request of the local representatives. An alternative facility will be evaluated by the Complete Streets Review Team based on:

- purpose and need of the proposed facilities
- current or anticipated land use context of the project area
- traffic count data
- design speed
- crash history
- topographic and geometric features of the roadway
- safety

Project Managers will consult with the Complete Streets Program Administrator to request evaluation of an alternative facility. The decision of the Complete Streets Review Team will be documented in the Complete Streets Project Sheet.

### **3 Resurfacing and Maintenance Activities**

#### 3.1 Scheduled Resurfacing

Each year, a county-level resurfacing schedule is developed within each NCDOT Division. NCDOT Division staff will meet with local agencies to review the scheduled roadways and identify locations to evaluate Complete Streets improvements. These may include striping, markings and associated signage.

The following process shall be followed to review resurfacing projects for complete street improvements:

- The Operations Program Management Unit will coordinate with the Integrated Mobility Division to identify planned facilities within the project limits suitable for implementation in conjunction with maintenance activities.
- Identified locations for Complete Streets improvements will be noted on the resurfacing list distributed to each unit of local government.
- The local government concurrence with recommended Complete Streets improvements will be provided to the local NCDOT Division in writing.
- Completed improvements will be incorporated into the Pedestrian and Bicycle Infrastructure Network (PBIN) and ATLAS upon completion.

#### **3.2 Addition of Rumble Strips**

Rumble strips (raised traffic bars), asphalt concrete dikes, reflectors, and other such surface alterations, where installed on roadways without full access control, will be placed in a manner as not to present hazards to bicyclists or interfere with existing on-road bicycle facilities. Rumble strips shall not be extended across the shoulder of the roadway or other areas intended for bicycle travel.

#### **4 Work Zone Accommodations**

The continuity of existing bicycle and pedestrian facilities will be maintained during construction and maintenance activities. During the construction phase of a roadway project, NCDOT's <u>Guidelines for the Level of Pedestrian Accommodation in Work Zones</u> will be followed.

## **5 Policy References**

#### 5.1 Eliminated Polices

The following policy documents are superseded by the Complete Streets Policy (2019):

- Complete Streets Policy (2009) and Complete Streets Planning and Design Guidelines (2012)
- Bicycle Policy (2009, update)
- Pedestrian Policy Guidelines (2001)
- Administrative Action to Include Local Adopted Greenway Plans in the NCDOT Highway Planning Process (1994)

#### **5.2 Related Policies**

The following policy documents include elements related to Complete Streets implementation:

- Traditional Neighborhood Development Manual (2000)
- Bridge Policy (2000)
- Policy on Street and Driveway Access to North Carolina Highways (2003)
- Exceptions to Maintenance Responsibilities on State Highway System Streets in Municipalities (2003)
- Subdivision Roads: Minimum Construction Standards (2010, updated May 2016)
- Guidelines for Inclusion of Greenway Accommodation Underneath a Bridge as Part of a NCDOT Project (2015)

## 6 Cost Share

#### 6.1 Complete Street Cost Share

The table below illustrates the funding responsibilities for Complete Streets incorporating bicycle and pedestrian and roadway public transportation facilities.

	Complete Street (	Cost Share	
Facility Type	In Plan	Not in Plan, but Need Identified	Betterment
Pedestrian Facility	NCDOT pays full	Cost Share	Local
Bicycle Facility	NCDOT pays full	NCDOT pays full	Local
Side Path	NCDOT pays full	Cost Share	Local
Greenway Crossing	NCDOT pays full	Cost Share	Local
Bus Pull Out	NCDOT pays full	Cost Share	Local
Bus Stop (pad only)	NCDOT pays full	Cost Share	Local

Bicycle and pedestrian and public transportation facilities that appear in a state, regional or locally adopted transportation plan will be included as part of the proposed roadway project. NCDOT will fully fund the cost of designing, acquiring right of way, and constructing the identified facilities.

Bridges will not be included in the total project construction cost for cost-sharing purposes. NCDOT is responsible for the full cost of bridges.

Where an alternative facility requiring equal or lesser right-of-way is deemed to perform on an equal or better basis with concurrence by the Integrated Mobility Division, NCDOT shall construct the alternative facilities no cost share by the local jurisdiction.

#### 6.2 Maintenance

Bicycle and pedestrian improvements within a municipal boundary are subject to local maintenance. A local maintenance agreement will be executed prior to the completion of a construction project.

In instances where a local maintenance agreement is not executed to maintain a bicycle or pedestrian facility, NCDOT will maintain the facility after construction if the bicycle or pedestrian facility lies within NCDOT right-of-way.

#### 6.3 Betterment

A roadway project betterment is defined as:

- A requested bicycle, pedestrian or public transportation improvement that exceeds the recommendations appearing in a state or locally adopted plan requiring additional roadway width and/or right-of-way
- Aesthetic materials and treatments, if this cost is determined to exceed the cost of standard construction materials
- Landscaping in excess of standard treatments
- Lighting in excess of standard treatments

The additional costs associated with inclusion of these elements in a roadway project are the responsibility of the local jurisdiction, executed through a local agreement.

#### 6.4 Betterment Cost Share Formula

Bicycle and pedestrian facilities incidental to a roadway project where a need has been identified through the project scoping process but not identified in a locally adopted plan may be included in the project. Inclusion of these incidental facilities requires the local jurisdiction to share the incremental cost of constructing the identified improvements.

NCDOT will estimate the incremental cost of proposed improvements. The percentage of the total cost share for these improvements will be based on the table below according to the population of the jurisdiction in the most recent <u>annual certified estimated of population</u> as determined by the state demographer, and executed through a local agreement.

	Betterment Cost Share	
Municipal Population	Cost Part	ticipation
	NCDOT	Local
> 100,000	80%	20%
50,000 to 100,000	85%	15%
10,000 to 50,000	90%	10%
< 10,000	95%	5%

## 7 Design Guidance

The NCDOT **Roadway Design Manual** will serve as the authoritative reference for Complete Streets design. Cross-sections from the Manual will be used in stages of project planning, prioritization and development.

American Association of State Highway Transportation Officials (**AASHTO**) guides will serve as authoritative references for street design and will be used in coordination with the NCDOT Roadway Design Manual.

National Association of City Transportation Officials (**NACTO**) guides will serve as supplemental references for street design and will be used in coordination with the NCDOT Roadway Design Manual and AASHTO guides.

## 8 Administration of the Policy

The Complete Streets Core Technical Team (CTT) will meet quarterly to oversee the implementation of Complete Streets. The primary role of the CTT will be to review and maintain the Implementation Guide, recommend updates and process improvements and establish performance metrics for implementation. The CTT will direct the implementation of recommendations contained within the NCDOT Complete Streets 2.0 Recommendations document.

The CTT is comprised of the following units.

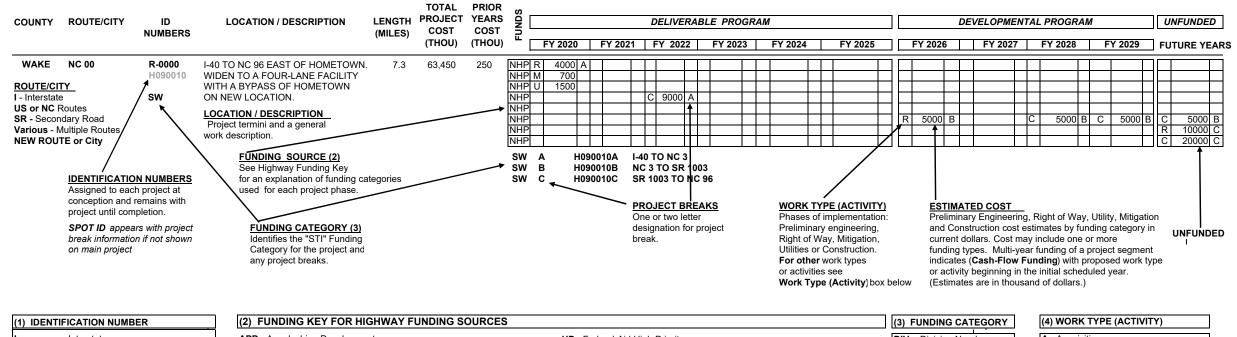

- ADA/Title VI Office
- Integrated Mobility Division
- Chief Deputy Secretary's Office
- Division of Highways
- Environmental Policy Unit
- Mobility & Safety

- Planning & Programming
- Rail Division
- Roadway Design Unit
- Technical Services
- Transportation Planning Division

## UCPRPO STI P6 REGION PROJECTS (8/28/19) - \*\*DRAFT\*\*

SPOT ID	Mode	TIP	Project Category	Route / Facility Name	From / Cross Street	To / Cross Street	Description	Specific Improvement Type	Cost to NCDOT	County(s)	P6.0 Status (Draft)	Notes
1090224-B	Highway	R-3407B	Regional Impact	NC 33	NC 42 at Scott'S Crossroads	NC 222 at Belvoir Crossroads	Widen to Multi-Lanes	1 - Widen Existing Roadway	\$ 64,400,000	Pitt, Edgecombe	Carryover	Completed or Active NEPA - Does not need to be re-submitted
H111270	Highway	U-6000	Regional Impact	NC 58	NC 42/Ward Blvd. (SR 1516)	Forest Hills Rd. (SR 1165)	Widen Roadway to Multi-Lane Facility with Bicycle and Pedestrian Accommodations	1 - Widen Existing Roadway	\$ 11,975,000	Wilson	Carryover	Completed or Active NEPA - Does not need to be re-submitted
H170647	Highway	I-6061	Statewide Mobility	I-95	SR 1003 (Brogden Road	)	Improve interchange to current standards allowing for future widening of I-95	8 - Improve Interchange	\$ 14,500,000	Johnston	Carryover	Programmed, not Committed - Does not need to be re-submitted
1170654	Highway	I-6062	Statewide Mobility	I-95	SR 2339 (Bagley Road)		Upgrade interchange to current standards allowing for future widening of I-95	8 - Improve Interchange	\$ 14,500,000	Johnston	Carryover	Programmed, not Committed - Does not need to be re-submitted
H170663	Highway	R-5761	Regional Impact	NC 242	SR 1168 (Tarheel Rd)	1-40	Widen to 4 lane highway with median and sidewalks (4E Section). Provide a four lane divided cross section for NC 242 North from its junction with US 301 Hwy to its intersection with Interstate 40. The addition of a median will allow for better controlled access which will provide more mobility as the corridor develops in the near future. Recent development and proposed new development in the near future means an increase in AADT thereby creating the need for controlled access for safe mobility.	1 - Widen Existing Roadway	\$ 14,000,000	Johnston	Carryover	Programmed, not Committed - Does not need to be re-submitted
H170664	Highway	R-5949	Regional Impact	US 258	SR 1601 (Colonial Rd)	US 64	Widen to a four-lane divided boulevard with sidewalks from SR 1344 to US 64.	1 - Widen Existing Roadway	\$ 18,000,000	Edgecombe	Carryover	Programmed, not Committed - Does not need to be re-submitted
H111268	Highway		Regional Impact	NC 58	SR 1320 (Airport Blvd)	NC 42, SR 1516 (Ward Boulevard)	Upgrading NC 58 Between Airport Blvd. (SR 1320) and NC 42/Ward Blvd. (SR 1516) to a Four-Lane Divided Boulevard with a Raised 23 - Foot Median with Bicycle and Pedestrian Lanes, and Curb and Gutter.	11 - Access Management	\$ 43,000,000	Wilson	Holding Tank	
4111275	Highway		Regional Impact	NC 42	I-795, US 264	SR 1165 (Forest Hills Road)	Upgrade This Corridor to a Four-Lane Divided Boulevard with a Raised 23-Foot Median with Bicycle and Pedestrian Lanes, and Curb and Gutter. Realignment Is Proposed, As Part of This Project at NC 42/ Old Raleigh Rd. (SR 1136) and Airport Blvd. (SR 1158) Due to the Proximity of This intersection to Several Schools in the Area.	11 - Access Management	\$ 28,700,000	Wilson	Holding Tank	
H170115	Highway		Statewide Mobility	I-87, US 64	US 258 (Western Blvd), US 64 Alt		Upgrade Interchange to Interstate Standards and provide safe pedestrian facilities across US 64 (Western Blvd) in Tarboro.	8 - Improve Interchange	\$ 15,200,000	Edgecombe	Holding Tank	
H170537	Highway	U-3464	Regional Impact	US 301 (S Brightleaf Boulevard), NC 96 (S Brightleaf Boulevard)	SR 1341 (Galilee Road)	SR 1007 (Brogden Road)	SR 1341 (Galilee Road) to SR 1007 (Borgden Road). Widen to Multi-lanes.	1 - Widen Existing Roadway	\$ 31,900,000	Johnston	Holding Tank	
170543	Highway	U-3464	Regional Impact	US 301 (S Brightleaf Boulevard), NC 96 (S Brightleaf Boulevard)	1-95	SR 1341 (Galilie Road)	Widen to Multi-Lanes.	1 - Widen Existing Roadway	\$ 28,700,000	Johnston	Holding Tank	
1170666	Highway		Statewide Mobility	I-95	US 301 (N Church St)		Upgrade Interchange to diamond interchange allowing for future widening of I-95 and include a safe and convienant connection to NC 222.	8 - Improve Interchange	\$ 12,500,000	Johnston	Holding Tank	
H170729	Highway		Statewide Mobility	I-42, US 70	SR 2309 (Creech's Mill Road)	SR 2314 (Pondfield Road)	Upgrade Roadway to Interstate Standards	3 - Upgrade Expressway to Freeway	\$ 108,500,000	Johnston	Holding Tank	
H171618	Highway		Regional Impact	US 258 (Mutual Boulevard)	I-87, US 64		Construct US 64 Westbound off-Ramp	9 - Convert Grade Separation to Interchange	\$ 12,500,000	Edgecombe	Holding Tank	
	Highway		Regional Impact	Alt 64 (Western Blvd)	US 64/I-87	Howard Ave	Access Management, improve intersections, and pedestrian faciliities - Widen to 4 Lanes	1 - Access Management		Edgecombe		Town of Tarboro (via CB Brown 1/18/19)
	Highway		Regional Impact	NC 210	Black Creed Rd	BUS 70 (W Market St)	Widen highway. To be determined	1 - Widen Existing Roadway		Johnston		Johnston (via Durwood Stephenson email 7/17/18)
	Highway		Statewide Mobility	I-87, US 64	Nash/Wake Co	Egecombe/Martin Co	Upgrade to Interstate Standards	Modernization		Nash/Edgec ombe		Legislation (Possible INFRA Grant)
	Highway		Statewide Mobility	US 264	Wake County Line	I-95	Upgrade to Interstate Standards	Modernization		Wilson		Request by Greenville MPO. MPO to provide Region Points to support.
	Highway		Regional Impact	NC 242	SR 1168 (Tarheel Rd)		Intersection improvments	8 - Improve Intersection		Johnston		Request from Benson
	Highway		Regional Impact	Alt 264 (Raleigh Rd Pkwy	) NC 42 (Ward Avd)		Intersection improvments with round-about	8 - Improve Intersection		Wilson		City of Wilson

# THE REAL DEAL ABOUT

Congress passed the REAL ID Act requiring states to issue identification that meets higher security standards.

- O A single form of identification for ease of travel
- An increased security measure (Verifies identity and residency)
- Meets federal identification requirements for TSA and federal facilities, including military bases and nuclear power plants
- A driver license or identification card with a gold star
- Same cost as a driver license and identification card
- O Must be obtained in a driver license office
- Non-REAL IDs will not have the gold star and will be clearly noted "Not for Federal Identification".
- Without a REAL ID, you will need to contact TSA and each federal facility about the additional identification required for access.

### NEW NC DRIVER LICENSES & IDENTIFICATION CARDS

A **REAL ID** is a single form of identification to: •Travel on commercial airlines •Enter military bases •Enter federal facilities •Enter nuclear power plants

An ID with "Not for Federal Identification" will require additional documentation for flying and entering military bases, nuclear power plants and other federal facilities.

Get the complete list of requirements at **NCREALID.gov** Call to schedule your appointment (919) 715–7000

50,000 copies of this public document were printed at a cost of \$2,250,00, or \$0,045 per copy. (1/2018)

## NEW ID REQUIREMENTS IN NORTH CAROLINA

## REQUREMENTS Bring documents from the following categories to a DMV office to apply for a REAL ID

## IDENTITY, DATE OF BIRTH & LEGAL PRESENCE/ LAWFUL STATUS

## ONE (1) OF THESE DOCUMENTS WITH YOUR FULL NAME AND DATE OF BIRTH:

#### **O BIRTH CERTIFICATE**

A certified birth certificate issued by State Office of Vital Statistics in the United States or a U.S. territory can be provided.

Photocopies of those documents are not allowed unless they are certified by the issuing agency.

#### **OU.S. PASSPORT**

A valid, unexpired U.S. passport.

#### O U.S. GOVERNMENT DOCUMENTS

- Consular Report of Birth Abroad (Form FS-240, DS-1350 or FS-545)
- Valid, unexpired Permanent Resident Card (Form I-551)
- Unexpired Employment Authorization Document (Form I-766 or I-688B)
- Unexpired foreign passport with a valid, unexpired U.S. visa affixed accompanied by the I-94 Arrival/Departure Record
- Certificate of Naturalization (Form N-550 or N-570)
- Certificate of Citizenship (Form N-560 or N-561)

#### O REAL ID

A valid, unexpired REAL ID driver license or identification card from another state with your full name.

## SOCIAL SECURITY NUMBER

#### ONE (1) OF THESE DOCUMENTS:

Social Security card

- 1099 tax form with FULL Social Security number
- W-2 form with FULL Social Security number
- Pay stub with FULL Social Security number

## NAME CHANGE DOCUMENTS

#### IF YOUR NAME IS DIFFERENT FROM YOUR BIRTH CERTIFICATE, PASSPORT, U.S. GOVERNMENT DOCUMENTS OR REAL ID, YOU MUST PROVIDE ONE (1) OF THESE DOCUMENTS WITH PROOF OF NAME CHANGE:

- Certified marriage license/certificate
- Certified divorce decree
- ODocument from the courts or Register of Deeds
- Documents issued by countries outside of the U.S. are not accepted

## ADDRESS

#### TWO (2) OF THESE DOCUMENTS WITH YOUR CURRENT N.C. ADDRESS:

- Any document issued by the state of North Carolina, a county, city, or the federal government
- Any document issued by another state or government of another nation

- Preprinted bank statement or financial statement
- Preprinted business letterhead
- 🗘 Pay stub
- Receipt for personal property taxes or real property taxes paid to a North Carolina county, city or town
- 🛇 Utility bill or cable bill
- Housing lease or contract, mortgage statement, property or income tax statement
- N.C. vehicle registration card or title
- N.C. voter precinct card
- N.C. vehicle insurance policy
- ON.C. school records
- Letter from homeless shelter

#### **MINORS UNDER AGE 18 ONLY**

- Mailed correspondences from organizations (Boy Scouts/Girls Scouts, recreational teams, etc.)
- ON.C. school records
- Magazine subscriptions
- Lease or housing contract listing minor as an occupant
- Tax records/returns listing minor as a dependent
- Medical/hospitalization records
- Hunting/fishing license
- Social Security card stub showing current address
- Preprinted bank statement or financial records
- Preprinted business letter
- Letter from homeless shelter
